

**Carrying Your Photo Gear
Kinesis L511 Long Lens Case with Backpack Harness and Belt**

EQUIPMENT LIST

**Canon EOS 1D Mark II
Canon 500mm f4 IS
Canon 1.4x and 2.0x TC
Canon 580EX
Canon flash cord and Wimberley Module 3
Wimberley Modules 9 and 6
FX-3 Better Beamer
2 Canon EOS 1D Mark II batteries
2 sets of 4 AA PowerEx batteries
Storm Jacket for 500 f4 setup**

All of this fits into the Kinesis L511 Long Lens Case. Modular components can be added to the backpack harness and belt to carry additional items as well.

Note: Always be cautious when transporting your lens with the SLR attached, as there can be undue stress placed on the mount. Also, due to the fact the lens is resting with the hood in its reverse position, a hard cap unlikely to be penetrated is preferred to offer maximum protection to the front element.
